

Please note: beginning January 1, 2023, any resident identified as having commenced construction or use activity without acquiring the necessary permits shall be charged DOUBLE the normally-assessed fees.

Zoning, Building, Electrical, Plumbing, Mechanical, HVAC and Miscellaneous Permits

Processing & Retention fee (normally required) shall be paid at the time a permit application is submitted. Applications will *not* be processed until the fee is paid.

The Permit Fee, which is separate and above the cost of the Processing & Retention Fee, will be calculated during the review process and shall be paid in full at the time the permit is picked up. ***Please note that the fees listed assume the submitted permit is complete and will not require additional review time above and beyond what is customary for such a permit application's review. The applicant will assume all additional costs for the review time of deficient permits.***

Please note that the PA Uniform Construction Code (UCC) Labor & Industries Training and Certification fee of \$4.50 is included in each UCC-regulated permit.

Whenever the cost of the permit is based on an estimated project cost, the Applicant is responsible for submitting the estimated total value of all work at the time of application. The estimate shall include the cost for building excavation and all materials and labor for which the permit is being issued, such as general construction, electrical, gas, mechanical, plumbing equipment, and permanent systems. If, in the opinion of the building official, the valuation is underestimated on the application, the permit shall be denied, unless the applicant can show detailed estimates which meet the approval of the building official. The final building permit valuation shall be set by the building official.

Whenever the building code official is required to perform additional inspections over what is included in the permit fee, the fee charged for these additional inspections shall be \$95.00 per inspection. The need for additional inspections can usually be avoided by ensuring that the work is ready for inspection before scheduling an appointment and is completed in accordance with all requirements, and by having the owner or another representative present at the scheduled inspection time when required. The fee for additional inspections or re-inspections shall be paid directly to Technicon Enterprises, Inc. II before additional inspections will be performed.

If stormwater controls are required as determined by the Township Engineer, additional fees will be assessed per the Stormwater Controls section of this schedule on page 9.

Subdivision and Land Development (SALDO) Applications

Listed below are the subdivision and land development application fees and the review escrow deposit that will be used to reimburse the Township for outsourced professional expenses including legal, planning & engineering services incurred for plan review and reporting. The application and review escrow deposit shall be paid prior to or at the time of submission.

For applications that require both Preliminary and Final Plan approvals, the Applicant shall pay the below listed application fee plus the review escrow deposit at time of Preliminary Plan submission. At Final Plan submission for the same project, the Applicant shall replenish the review escrow deposit to the original amount.

When applications only require Final Plan approval, the Applicant shall pay the below listed application fee and review escrow deposit prior to or at the time of submission.

Professional service expenses incurred by the Township shall be deducted from the review escrow deposit at the time the Township receives an invoice for such service. In the event that a deposit is exhausted, the Township will invoice the Applicant periodically for expenses incurred in excess of the deposit. As the deposit is expended, the applicant shall replenish the deposits upon notice from the Township.

After the Plan review process is complete, any remaining monies on deposit shall be returned to the Applicant. In the event that the deposited funds are not sufficient to reimburse the Township for all expenses the Applicant will be invoiced for the remaining amount due. All monies due from the Applicant shall be paid in full prior to the Township releasing the Final Plan for recording.
